This is to keep you informed of our plans concerning the forthcoming research project in San Diego as we discussed several weeks ago in your office.

We are planning to have the personnel and equipment on site on or about 22 June and will remain for 7 to 10 days.

25X1 Since our last meeting one other contractor group will be in the area for 3-4 days working on an allied project over the same test sites. This

It appears that we will not have ground stations on North Island NAS for this project; however, we do plan to use two military sites on the Naval Station in South Bay area. Both the [redacted] aircraft (B-25) and the [redacted] (Cessna 320) will operate out of Lindberg Field and will not require any military logistics support. We would like to enlist your aid, however, for liaison between the contractor personnel and the Navy base for permission to set up two monitoring stations on the base.
